

# Cable Scissors No. 35

WEICON has been developing and producing various types of cable stripper since 1967. These premium quality tools are TÜV-tested, carry the GS seal for verified safety, and were developed taking occupational safety and user-friendliness aspects into account. The WEICON range includes cable strippers, cable dismantling tools, wire strippers and various multifunctional tools for professional users.

## Description

Cable Scissors No. 35. are suitable for three different applications: cutting, stripping and crimping. The scissors are specially designed for the everyday work, in many situations. This makes it a useful addition to other tools in the field of electricians. The Cable Scissors have been specifically tailored to the needs of professional users and is used in both, crafts and industry.

The tool is suited for dismantling and stripping Cu/Al conductors as well as crimping wire ends between 0.5 and 4 mm<sup>2</sup>. The stainless blades are made of high-quality INOX steel (hardened to 55 HRC) which makes them very durable. Due to fine micro tothing on the blades of the scissors, very precise flush and non-slipping cutting is made possible. The non-slip 2-component handles made of impact resistant fiberglass reinforced plastic ensure safe working.

## Technical data

Field of use:	Fine-stranded copper and aluminum cables up to a cross section of 50 Blades with fine micro tothing for a very precise cut
Hardness blades:	HRC 55
Additional benefits:	Dismantling, stripping and crimping of wire ends between 0.5 and 4 mm <sup>2</sup>
Material:	Stainless blades made of high-quality INOX steel
Length:	150 mm
Weight:	90 g
Accessories:	Safetybox with a belt clip

## Note

Working with WEICON Stripping tools is only permitted with potential free wires and conduction.
